

IGOR ROMANENKO

Senior Software Engineer

Toronto, ON | 519-701-2757 | romanenko.igor2014@gmail.com

PROFESSIONAL SUMMARY

Senior Software Engineer with 9+ years of experience building scalable, high-performance applications. Specialized in backend and microservice architecture, CI/CD pipelines, and cloud-native infrastructure. Proven track record leading sprint ceremonies, mentoring developers, and delivering reliable integrations across complex distributed systems.

EXPERIENCE

Senior Software Engineer | KX Systems, Canada | Feb 2024 – Present

- Developed a high-performance microservice powering real-time data operations for KDB Insights.
- Ensured comprehensive test coverage and seamless integration with CI/CD pipelines.
- Primary technologies: Golang, Docker, Kubernetes, Helm; exposure to KDB/Q.

Backend Developer & Sprint Lead | Deliverect, Canada | Jan 2023 – Feb 2024

- Led backend development initiatives focusing on platform reliability and third-party integrations.
- Facilitated Agile sprint ceremonies (stand-ups, planning, retrospectives) and conducted regular 1:1s and mentorship sessions.
- Participated in internship hiring and contributed to scaling team practices and engineering processes.

Backend Developer | Deliverect, Canada | Jan 2022 – Dec 2022

- Built integrations between delivery platforms and Point-of-Sale (POS) systems to streamline restaurant operations.
- Increased test coverage and type coverage by 30%, improving platform stability and maintainability.
- Primary technologies: Python, Flask, MongoDB, Docker, RabbitMQ.

Senior Full-Stack Developer | Northbridge, Canada | May 2020 – Jan 2022

- Delivered new features for the company's core insurance quoter product.
- Collaborated cross-functionally to ensure bug-free integration with interdependent REST APIs.
- Managed and updated the deployment pipeline in Microsoft Azure.
- Primary technologies: Python/Django (backend), JavaScript/Angular (frontend).

Senior Developer | BMO Financial Group, Canada | Jun 2019 – Jan 2020

- Supported and enhanced the Page Builder platform for internal users.
- Implemented business logic, created unit tests, and helped automate team workflows.
- Primary technologies: Python/Django (backend), JavaScript/React (frontend).

Front-End Developer | Atomic Reach, Canada | Aug 2018 – Jun 2019

- Rebuilt the front-end application using React.js with a focus on modular, testable components.
- Applied functional programming paradigms to improve codebase scalability and maintainability.
- Mentored junior developers on front-end best practices.

Web Developer | Horizn Inc., Canada | Jan 2018 – Jul 2018

- Developed and maintained web applications using the LAMP stack.
- Optimized MySQL queries to improve application performance.

Web Developer | Kanetix Ltd., Canada | May 2016 – Jan 2018

- Wrote clean, performant code using PHP, Python, and JavaScript.
- Helped onboard new developers and get them up to speed with the company's technology stack.

TECHNICAL SKILLS

Languages: Python, Go, JavaScript, PHP

Frameworks & Libraries: Django, Flask, Celery, Laravel, React.js, Angular

Databases: PostgreSQL, MySQL, MongoDB

Tools & Infrastructure: Git, Docker, Kubernetes, Helm, RabbitMQ, Microsoft Azure

Practices: Microservice Architecture, REST APIs, CI/CD, Agile/Scrum, System Design, Unit Testing

EDUCATION

Internet Applications and Web Development – Fanshawe College, London, ON (Sep 2014 – Apr 2016)

Web Development Immersive Bootcamp – BrainStation, Toronto, ON (Jun 2015 – Aug 2015)

International Business Management – National Mining University, Ukraine (Sep 2008 – Dec 2013)
